Filter Manufacturers Council

Technical Service Bulletin 93-3

Installation Instruction for Spin-On Filters

The spin-on oil filter is replaced more often than any other service part on your vehicle. To insure normal oil filter service life and prevent oil leakage or possible internal engine damage, the following procedure should be followed when replacing spin-on oil filters.

1) Open hood, remove the oil fill cap and place cap on air filter cover or any other flat visible surface. (This will serve as a reminder that oil has not been added to the crankcase).

2) Raise the vehicle and remove the oil drain plug(s), drain the oil and replace the drain plug(s). If drain plug(s) has a crush ring or gasket, check it for serviceability. If unserviceable, replace the ring or gasket.

3) Remove the oil filter using an oil filter wrench, if necessary.

4) Clean mounting base, making sure the old oil filter gasket is not stuck to the base. Apply a light film of clean oil to the new filter gasket. Note: Never use grease to lubricate the gasket.

5) Screw the new filter on carefully, avoiding cross-threading. On turbocharged engines, it may be necessary to fill the filter with clean engine oil prior to installation. Check engine manufacturer's recommendations. After the sealing gasket contacts the mounting base, tighten the filter per the instructions found on the filter or filter box. **DO NOT OVER TIGHTEN.**

6) Lower the vehicle, and fill the crankcase to the recommended level with oil as per the manufacturer's specifications and install the oil fill cap. Start the engine and insure that the engine oil pressure light

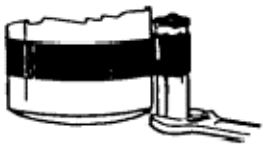
goes out or the oil pressure comes up to normal on the oil pressure gauge.

7) Turn off the engine and check the dipstick reading. Add additional oil, if needed.

8) Start engine, raise the vehicle and check for oil leakage around the oil filter and drain plug.

9) Lower the vehicle, turn off the engine and close the hood.

10) Check local, state and federal regulations for the proper disposal of your used oil and filters.



Typical wrench styles used for filter removal or installation

Cup Wrench

Strap Wrench

Heavy Duty Wrench

PRODUCT INVESTIGATION

PROCEDURE FOR SUBMITTING CUSTOMER SERVICE REQUESTS AND SAMPLES

This form must be used for all customer service requests, whether for oil sampling, parts analysis, complaints or claims.

All requests must comply with the following procedure:

A. Request Involving An AMSOIL Lubricant:

1. A product sample must be obtained for all customer service requests. A (4) ounce sample is needed for engine oils, gear lubricants, compressor oils, hydraulic fluids or farm tractor fluids. Take samples while oil is at operating temperatures. **Do not submit two-cycle lubricant mixed with fuel!**
2. A customer service form must be ***completely*** filled out and signed by the person initiating the request. This form is designed to obtain information needed in order to properly answer your request.
3. All samples and customer service requests are to be mailed to the following address:

   AMSOIL Inc.
   2206 Winter Street
   Superior, Wisconsin 54880
   Attn: Technical Services Department

4. All product samples must be mailed in tightly sealed ***plastic*** containers ***only***. Glass containers or any other containers are ***not acceptable*** due to the high incidence of breakage in transit.
5. A $15.00 (U.S.) fee payable to AMSOIL Inc. ***must accompany*** all customer service requests in which an oil sample is submitted or parts analysis is required.
6. **Claims for other than product replacement must be accompanied by the parts believed to be damaged due to the use of the AMSOIL Product.**

B. Requests Involving Other AMSOIL Products:

1. If you suspect a defect in manufacture, or are requesting replacement under warranty, return the AMSOIL Product to the address listed in number 3 above.
2. If you believe the AMSOIL Product caused other damage, submit both the AMSOIL Product and the parts which you believe to have been affected.

Two-Cycle Claims: All two-cycle claims must be accompanied by the parts in question, shipped to AMSOIL freight pre-paid and insured against loss equal to the amount of the claim. **Do not send two-cycle oil mixed with fuel.**

Parts: Parts submitted for analysis must be sent by the dealer freight pre-paid and insured against loss equal to the amount of the claim.

Unless otherwise indicated, all parts will be disposed of after **45 days**.

Filter Manufacturers Council

Technical Service Bulletin 85-1R2

Manufacturers' Warranty

Consumer purchasers of filters are sometimes told that an aftermarket brand of replacement filter cannot be used in the consumer's vehicle during the warranty period. The claim is made that use of an aftermarket brand will "void the warranty," with the statement or implication that only the original equipment brand of filters may be used. This tends to cast doubt on the quality of the aftermarket filter.

That claim is simply not true. If the consumer asks for the statement in writing, they will not receive it. Nevertheless, the consumer may feel uneasy about using replacement filters that are not original equipment. With the large number of consumers who prefer to use an aftermarket filter this misleading statement should be addressed.

Under the federal Magnuson-Moss Warranty Act, the Clean Air Act and general principles of the U.S. Federal Trade Commission Act, a manufacturer may not require the use of any brand of filter (or any other article) unless the manufacturer provides the item free of charge under the terms of the warranty.

If the consumer is told that only the original equipment filter will not void the warranty, they should request that the OE filter be supplied free of charge. If they are charged for the filter, the manufacturer may be violating the Magnuson-Moss Warranty Act or other applicable law.

By providing this information to consumers, the members of the Filter Manufacturers Council (FMC) intend to combat the erroneous claim that the use of a brand of replacement filter other than original equipment will "void the warranty."

It should be noted that the Magnuson-Moss Warranty Act is a U.S. federal law that applies to consumer products. The U.S. Federal Trade Commission has authority to enforce the Magnuson-Moss Warranty Act, including obtaining injunctions and orders containing affirmative relief. In addition, a consumer can bring suit under the Magnuson-Moss Warranty Act.

USED OIL FILTER RECYCLING PROGRAM

We are pleased to offer all our customers a simple, easy to use recycling program for the environmentally responsible way to dispose of used oil filters. Now there's an easy way for you and your customers to recycle used oil filters with no hassles. Our company, in conjunction with America Resource Recovery, Ltd., can provide you with a turn-key oil filter recycling program with zero waste and no liability ever!

What is "zero waste"? Zero waste means all the used oil filter materials are reused: the steel is recycled and made into construction rebar, the residual oil is recycled and the filter media is used as an alternative fuel for the production of portland cement. Zero waste means you have no environmental liability – EVER!

Why was American Resource Recovery, Ltd. chosen to administer our program? Simple – A.R.R. is a subsidiary of American Waste Industries, Inc. which has been in the business of chemical waste management, transportation and recycling since 1972. A highly reputable company, A.R.R. maintains an exemplary record of environmental safety and compliance. A.R.R.'s recycling process conforms to all E.P.A. regulations regarding the disposal of used oil filters.

Who can utilize this recycling service? Fleets, installers and parts stores that want to provide used oil filter recycling for themselves and / or their customers. The administration of the program is handled entirely by A.R.R. and this service does not increase the cost of your filters.

What are the benefits of this program?

- **No landfill liabilities.**
- **Nationwide service – door to door, LTL or bulk pickup.**
- **Toll-free customer service telephone number.**
- **Annual tracking report.**
- **Pre-negotiated pricing.**
- **Complete insurance coverage.**
- **Fully permitted and licensed processing facility.**
- **Enhances your reputation as an environmental leader.**

How do I get enrolled in the program or get more information? Simply contact your local filter representative, contact our Technical Services department or contact A.R.R. Ltd directly at 1-800-841-6900.

VEHICLE IDENTIFICATION NUMBER (VIN) DECODING

Originally, Vehicle Identification Numbers (VIN) were designated to identify a vehicle, but there was no standardization. Beginning in 1981, vehicles were assigned an International VIN code consisting of 17 characters (which cannot include the letter I, O or Q) unique to each vehicle.

The VIN serves a variety of purposes. As well as providing identification in licensing and insuring the vehicle, the history of the vehicle can be tracked. VIN codes provide complete vehicle information including:

- is the vehicle defective (lemon car)
- has the vehicle been totaled or had major accident damage
- has the vehicle had flood damage
- has the vehicle had odometer fraud
- has the vehicle been stolen

To help decode the VIN, the following information has been provided:

- 1st - 3rd Characters
  Identify the manufacturer (county), make and type of vehicle.
- 4th - 8th Characters
  Identify the different aspects of the vehicle.

For each type of vehicle (passenger cars, multi-passenger vehicles (MPVs), trucks, buses, trailers, motorcycles, incomplete vehicles other than trailers) different information is required.

For cars, MPVs and light-duty trucks:

4th - 5th positions are alphabetic

6th - 7th positions are numeric

8th position can be either alphabetic numeric

- 9th Character (or Check Digit)
  Is determined by a complicated formula.

Each character is assigned a numerical value and then multiplied by the value assigned to its position. These values assigned to its position. These values are added and then divided by 11. The remainder is the Check Digit. This character can be numeric or the letter X.

- 10th Character
  Identifies the vehicle model year.
- 11th Character
  Identifies the plant of manufacture.
- 12th - 17th Characters
  Consists of a sequential production number for manufacturers producing more than 500 vehicles per year.

VIN NUMBER ORIGIN AND YEAR

1ST CHARACTER - COUNTRY OF ORIGIN

1-	U.S.A	K-	Korea	W-	Germany
2-	Canada	L-	Taiwan	Y-	Sweden or Finland
3-	Mexico	M-	Thailand		
4-	U.S.A	S-	Great Britain	Z-	Italy
5-	Brazil	V-	France or Yugoslavia		
J-	Japan				

10TH CHARACTER - YEAR

A-	1980	H-	1987	R-	1994	1-	2001
B-	1981	J-	1988	S-	1995	2-	2002
C-	1982	K-	1989	T-	1996	3-	2003
D-	1983	L-	1990	V-	1997	4-	2004
E-	1984	M-	1991	W-	1998	5-	2005
F-	1985	N-	1992	X-	1999		
G-	1986	P-	1993	Y-	2000		

VIN plates are read through the windshield on the driver's side of most vehicles. A manufacturer may use a variation of the same size engine in one model. To insure that you are using the correct filters for the application, it is necessary to identify the proper engine code. The following examples illustrate the location of the engine code in most manufacturer's VIN codes.

AMSOIL Filter Limited Warranty

“AMSOIL warrants that its Filtration Products are fit for use according to AMSOIL’s recommendations and warrants its products to be free of defective materials, design, and workmanship”.

Wix Filter Limited Warranty

New car and equipment warranties remain in effect when WIX filters are used.
WIX Filtration Products warrants each WIX filter to be free from defects in material and workmanship during the period of service life recommended by the engine or equipment manufacturer. This warranty does not apply if the filter has been improperly installed, abused, damaged, used in competitive racing or on modified high performance engines or if used in any aircraft or aviation application. If your WIX filter is found to be defective in material or workmanship during the period of service life recommended by the engine or equipment manufacturer, WIX Filtration Products will replace the defective filter with another WIX filter. In addition, WIX Filtration Products will reimburse you for the reasonable costs of the parts and labor required to repair your engine or equipment to the extent the damage was solely attributable to a defect in your WIX filter. In order to obtain engine or equipment repairs under this warranty, the customer must, within 30 days after discovery of damage, submit a claim to any WIX representative, our WIX distributor, or directly to the address below. The customer must also allow the WIX Technical Service Department to examine the filter and, if required, the engine or equipment, to determine the extent of damage and whether it was caused by a defective WIX filter. The filter must be returned, in its original, undamaged condition, to the WIX Technical Service Department for examination. This warranty is exclusive of any other warranty, express or implied. WIX FILTRATION PRODUCTS EXPRESSLY DISCLAIMS, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTIBLITY AND OF FITNESS FOR A PARTICULAR PURPOSE. The foregoing states WIX Filtration Product’s entire and exclusive liability and the buyer’s exclusive and sole remedy for any damages or claim made in connection with the sale of a WIX filter. WIX Filtration Products shall in no event be liable for any special, incidental, or consequential damages whatsoever, except those specifically provided for in this warranty. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusion may not apply to you. This warranty gives you specific legal rights and you may also have other rights, which vary from state to state.

Donaldson Filter Limited Warranty

Donaldson warrants its Aftermarket products against failure due to defects in materials and workmanship for the period specified under Terms and Conditions for the particular product. Donaldson’s obligation under this warranty covers replacing the failed product, including transportation charges, only. If the Donaldson product failure is the sole and direct cause of damage to the equipment on which the product was properly installed, Donaldson will reimburse reasonable costs to restore the equipment to the condition it was in immediately before the failure. This warranty does not cover failure due to misapplication, misuse, abuse, neglect, rust through and corrosion (mufflers), improper service practices or non-Donaldson approved modifications. Engine and equipment manufacturers warranties remain in effect when Donaldson products are used. Donaldson must be notified in writing of any claims covered by this warranty within one year of the date of failure. Donaldson, at its discretion, will either physically visit the site where the alleged failure has been found; or, request that all parts, Donaldson and other relevant parts, be shipped prepaid to its General Office, in care of the Product Lab or as otherwise specified.

Warranty coverage begins on the date and mileage the product is purchased by the user and expires when the specified number of years or miles has passed, whichever occurs first.

The length of warranty for replacement products provided under warranty coverage is the balance of the warranty period remaining on the product being replaced.

Filtration Products Warranty from Date of Delivery to User
Air Cleaner Housings & Accessories……..1 Year
Liquid Filter Assemblies & Accessories……..1 Year
Air & Liquid Filters…… Until first cleaned or serviced in any manner.
Air/Oil Separators……..6 months/1,000 hours from in-service date
